

OPERATING WINDOWS

Double Hung

New MIRA™ Double Hung Windows are the perfect convergence of performance and unmatched beauty. Made of vacuum-treated, solid wood components, MIRA windows are clad with extruded aluminum, which resists dings and dents while providing additional structural integrity. Plus, they deliver DP50 performance, straight out of the box in most sizes. And a 14-degree sloped sill and sturdy 6/4 sash provide the historically accurate look of wood frame windows, creating a visual depth to the appearance while delivering superior performance. You can't buy a better aluminum clad-wood window today.
